Webinar Instructor

Daily I'm still giving lessons to students all around the world in 3 languages.
Last decade I decided to share my educational and chess experience in all kinds of trainer programs.
At the moment I'm also co-worker at a brand new Dutch e-learning program for chess trainers and teachers. I try to share my knowledge and experience with other chess federations or organisations, so that everyone who wants to become a chess trainer or teacher, will feel the support to become one!

As member of the ECU social commission, I devote my time too for the 'chess for freedom' activities.
I hope to inspire chess- players, trainers and passionates to share their energy and enthusiasm around them. Good luck and will I see you soon? 😊
